

## Safety information/cautions

1. When unplugging, it is strictly forbidden to only pull the wire to avoid damaging the plug.
2. Please refrain from forcibly pulling the cable.
3. Please do not expose this item to fire.
4. Do not attempt to modify or repair the equipment without proper training and tools.
5. Prohibited from prolonged immersion in water.
6. Please refrain from disposing of this electronic accessory with your regular waste. Certain countries and regions have designated departments that specialize in sorting and disposing of electronic waste products. For further information, we recommend consulting with local authorities.

## Warranty service

For headphones purchased from RayTalk, you are entitled to after-sales repair services provided by our company or authorized suppliers in case of product quality issues.

We offer a one-year warranty for our products, starting from the date of receipt of the goods.

During the warranty period, we will repair or replace the products for various defects caused by raw materials or manufacturing processes, depending on the specific circumstances.

## The above warranty does not include the following:

1. Products beyond the warranty period
2. Unauthorized dismantling and repair.
3. Failed to adhere to the product instructions, resulting in damage.
4. Damage caused by force majeure events, such as immersion, moisture, mold, and natural disasters, will not be covered under our warranty.
5. Natural aging and regular use may cause consumables to wear and tear, which are not covered under the warranty.

10. Premium speakers and microphone for crystal clear audio.

## Specifications

### INTERCOM SPEAKER

SIZE	29.8*5.6MM
IMPEDANCE	300 Ω±15%
SENSITIVITY	118±3DB
POWER	5 MW

### NOISE REDUCTION SPEAKER

SIZE	39.8*9MM
IMPEDANCE	32Ω±10%
SENSITIVITY	110±3DB
POWER	15MW

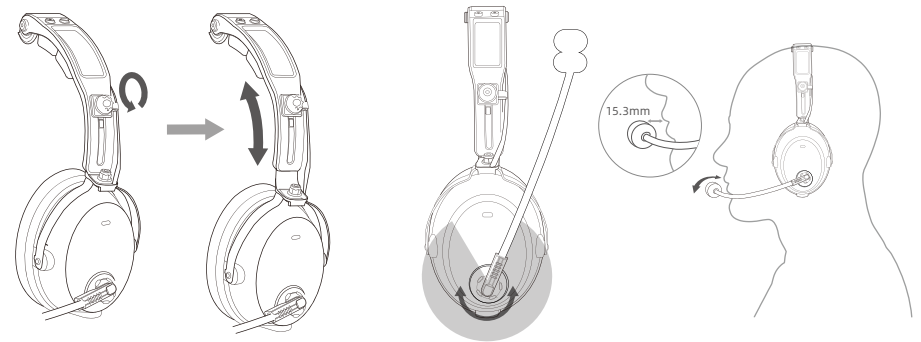

### INTERCOM MICROPHONE

SIZE	9.85*5.5*2.6MM
IMPEDANCE	2.2KΩ
SENSITIVITY	-54±3DB
DIRECTIVITY	BI-DIRECTIONAL

### INTERCOM MICROPHONE

SIZE	6*2.2MM
IMPEDANCE	2.2KΩ
SENSITIVITY	-37±3DB
DIRECTIVITY	OMNI-DIRECTIONAL

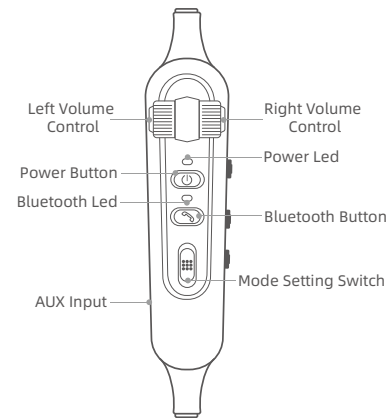

## Operation Instructions

It's easy to adjust your headsets for a personalized fit. Proper fit is crucial for comfort and optimal noise reduction.

To adjust the microphone position, rotate the microphone from its base and bend the flexible boom.

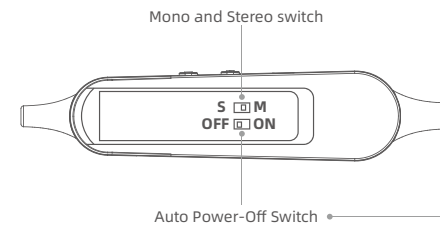

Grasp the microphone base and adjust the boom so that the microphone is positioned 15.3 millimeters from the lips.

**Flight priority mode (A):**  
When intercom has a voice, reduce the volume of Bluetooth or AUX music (when Bluetooth is in a call, the call voice will not decrease); after the intercom is over, the volume of Bluetooth or AUX will gradually return to its original level;

**Mixed mode (B):**  
intercom and Bluetooth or AUX sound exist at the same time;

**Music off mode (C):**  
Only intercom sound exists, and Bluetooth and AUX sounds are off; when Bluetooth is in a call, the other party's voice cannot be heard locally, but the other party can hear the local voice

**ON:** When the headset is not plugged into the intercom, it will turn off automatically after 1 h if music is playing, or after 5 min if no music is playing.

**OFF:** The headset remains on regardless of connection or playback status; no auto shut-down will occur.
